[Comments from SOULCALIBUR project team]

We are pleased to announce that our service of PS3 “SOULCALIBUR Lost Swords,” which started February 6, 2014 in Japan and April 22, 2014 overseas, has achieved one million downloads.

In our “Soul Series,” we have challenged a variety of attempts to deal with changing times and this time our challenge was a “free-to-play” game, which was further developed based on the concept of a single-player fighting game.

It is our great pleasure to have achieved one million downloads in about two and a half months.

We hope you enjoy our exciting service.
